

Education

Missouri State University *Springfield, Missouri*
Bachelor of Fine Arts in Graphic Design, Cum Laude
3.74 GPA on a 4.0 scale

Work Experience

2019–present

Freelance Web Development

Developing custom websites and applications for agencies and direct clients.

1.2016–present

Marlin Connections *Senior Web Developer and Front-end Team Leader*

Led front-end development for web products serving the food-service industry. Worked closely with designers and developers to build user-facing features that balanced good ux with sound technical decisions. Guided front-end standards and helped set direction for the team.

*Fall '10, '16 & '17,
Spring '11, '12, '17 & '19*

Missouri State University *Per-Course Instructor*

Taught five courses for design students at the sophomore through senior level, covering design software, production, graphic design concepts, and web design and development. All courses were project-based. Responsible for curriculum structure, instruction, and assessment within a defined range of topics.

1.2012–12.2015

Schilling/Sellmeyer & Associates *Graphic Designer and Web Developer*

Designed and developed print and web projects for local and regional clients across a range of industries. Owned the full lifecycle of client websites from concept through launch, including hosting and ongoing maintenance.

1.2006–12.2012

Image Works, Inc. *Lead Designer and Web Developer*

Led design across a wide range of print and web projects, including a quarterly magazine. Assigned work to and directed other designers and interns.

Professional Skills

Development

CSS/SASS: Experience and passion for writing sane and resilient stylesheets

JavaScript / TypeScript: Vue, Svelte, Alpine.js

User Interface Development: Design system and UI kit development

Analytics: Setup, event tracking, testing, and analysis

Performance: Performance optimization and Core Web Vitals

Animation: Meaningful and performant animations

Content Management Systems: WordPress, Statamic, Craft, Pimcore, Umbraco, Sanity

Web Accessibility: WCAG implementation and site auditing

Working with APIs: (Restful and GraphQL)

AI Assisted Development: Code generation, scaffolding, and AI-assisted code review

Strategy & Design

Typography: Fluid and responsive typographic manipulation

Production: Extensive experience with graphic, image editing and page layout applications

Information Architecture: Hierarchies, taxonomy development, and sitemapping

User Experience: User-centered design approach, ux research, and site audits

Interface Design: Wireframing and prototyping

Process & Management

Standards: Documenting best practices

Scoping: Requirements definition and acceptance tests

Tooling: Creating custom project boilerplates and standardization

Leadership: Overseeing junior designers and developers

AI Workflows: Output validation, quality control, and LLM assisted architectural planning
